

MARY D. HAPGOOD SPEAKS TOMORROW TO LIBERAL CLUB

Social Candidate for Governor Will Discuss State and National Issues

ALL STUDENTS ARE INVITED

Mary D. Hapgood, Socialist Candidate for Governor of Massachusetts, and one of the most prominent persons in her party, will be the speaker at the Liberal Club meeting tomorrow afternoon. Her subject will deal with the present state and national issues which are now before the eyes of the world.

For many years an active Socialist and politician, Mrs. Hapgood, wife of Powers Hapgood, candidate for the United States Senate, has been studying the conditions of the modern day. A graduate of the University of Michigan, Mrs. Hapgood spent some time teaching in the Worcester county schools.

Later, during a competitive civil service examination for Inspector of the Massachusetts Department of Labor and Industry, Mrs. Hapgood won second place and was appointed to the position. Due to her attitude on labor issues and strikes she was later dismissed because of radical ideas.

At that time the Sacco-Vanzetti trouble was being brought before the attention of the world. Mrs. Hapgood became one of the members of the Defense Committee and by her vigorous speeches and exhortations aided a great deal in bringing the matter before the public.

It was her frequent speeches to the people gathered on the Boston Common that later caused her to be arrested. She was tried under the charge of instigating riots but was eventually acquitted.

After this trouble had subsided Mrs. Hapgood went to the Anthracite regions of Pennsylvania where she waged a continual fight for free speech among the people. In this she was successful and during the next year she was very active in mine relief work throughout the coal regions of the state.

By bringing such a prominent speaker before the students, the purpose of the Liberal Club is being carried out. The meeting will be held in the Emma Rogers Room on the third floor of Building 10 and will start at 4 o'clock. All of the students of the Institute as well as the members of the faculty are invited to this meeting.

PROM COMMITTEE TO BE ELECTED TODAY

Will Choose 5 out of 28 Men to Take Charge of Event

Members of the Junior Class will choose their members for the Committee which has charge of the Annual Junior Promenade in the Main Lobby today. It is urged that all the members of the class avail themselves of this opportunity and cast their ballot in the booth which will be open from 9 o'clock until 5 o'clock.

This year the same as last year, a total of 28 men were nominated for the offices. Out of this number five will be elected. These five with the President of the Class acting as ex-officio chairman, will comprise the committee for the affair which is Technology's leading social function and will have complete charge of the management.

This year a special election will be conducted at the Roger's Building for the benefit of the architects. By this method the Juniors will go to the Institute to cast their ballot. Raymond L. Wofford, '28 will be in charge of the voting at Rogers and a booth will be there in the morning and part of the afternoon. Ralph Atkinson, '29 Chairman of the Elections Committee, who is in charge of the Junior Prom elections, requests that all the men in the Class of 1930 come out and vote for the members of the Committee. As a rule only about 50 to 60% of the Class has voted and it is hoped that this average will be raised this year.

Technology Students May Easily Get \$3000

In the Main Lobby, there appears a list of names, some of which are encircled in red. Those men who have their names so distinguished may present themselves at the Cashier's office and receive what money is owed to them by the Institute. Approximately \$3,000 will be distributed to about 200 undergraduates who neglected to collect their refunds upon last year's laboratory deposits. Bursar Horace S. Ford says that he doesn't like to have that excess money laying around the office, and requests all persons to collect their refunds at the earliest possible date. The list will be left in the Main Lobby for a few days in order to give the men a chance to find out if they have any money due them. Who says that there "ain't no Santa Claus?"

Annual Tech Show Smoker Will Take Place Thursday

Actors Will Present Several Acts From "Half a Man", 1928 Production

Tech Show of 1929 will hold its annual Smoker in the main hall, Walker, next Thursday night at 8 o'clock. Among the guests who have been invited are: Professor Robert E. Rogers, William C. Greene, Eric F. Hodgins, '22, and Assistant Bursar Delbert L. Rhind. The latter two are former Tech Show men.

Virgil W. McDaniel, '30, General Manager of the Show, will act as master of ceremonies and will present the speakers of the evening. The older men will talk on the work of Tech Show up to date, and will be followed by Stage Manager Richard N. Chindblom, '30 who will outline this year's show together with the skits on hand at the present time. A call for men to fill various parts of the cast will be issued and it is hoped that some of them will be filled before the completion of the evening's activities. The names of the coaches chosen to produce this year's Show will also be announced.

Numerous short acts, presented by former Show members, will constitute the second half of the evening's program. Frank B. Stratton, '29 who took the part of Ronnie in "Half a Man" last year will sing and act several of the musical numbers from that production. Following Stratton will come the famous detective quartet. It is hoped that the chief "defective," Willard F. McCormack, '29, will be located so that his bellowing accents may be again heard by Technology men. Following these acts refreshments will be served. According to the usual custom, the evening will be concluded by the singing of the Stein Song.

NOTED METALLURGIST WILL LECTURE HERE

Dr. William H. Hatfield will speak at the Institute under the auspices of the Department of Mining and Metallurgy on the Metallurgy of Steel and Cast Iron. Everyone interested is cordially invited to attend the lectures.

Dr. Hatfield will speak on "Applications of Science to the Steel Industry," in Room 4-370 at 4 o'clock on Thursday, November 8. Friday, November 9, his subject will be "Rust and Acid Resisting Steels." This lecture will be given in Room 4-370 at four o'clock. Dr. Hatfield, in connection with the Boston Chapter of the American Society for Steel Treating and the New England Foundrymen's Association will speak on "Cast Iron," Friday evening at eight P. M. in Room 5-330.

He went to college in England with Professor George B. Waterhouse, head of the Department of Mining and Metallurgy, at the Institute and is Director of the Brown-Firth Research Laboratories at Sheffield, England.

PROFESSOR TYLER IS MAIN SPEAKER AT CAMP REUNION

Freshmen Campers Have Annual Meeting in Faculty Dining Room

EXPECT 50 MEN PRESENT

Professor Harry W. Tyler, '84 head of the Mathematics Department, will be the principal speaker at the Freshman Camp Reunion. The meeting will be held in the Faculty Dining Room at 6 o'clock this evening.

Thirty five persons had returned their cards by Monday evening, 28 of whom signified that they would attend the meeting. Horace S. Ford Jr. '31 president of the Sophomore Class, was the only Sophomore who has signed up according to the latest reports.

It is expected that there will be about 50 men at the supper, including the upperclassmen. All cards making reservations had to be in the Institute mail boxes before 5 o'clock yesterday in order to give the committee ample time to make the necessary arrangements.

Coach Oscar Hedlund and Coach William Haines will deliver short talks to the group concerning sports. Richard N. Chindblom '30, Chairman of the Committee in charge, will preside at the meeting.

Motion pictures of the numerous activities at the Freshman Camp, which were shown at the All Technology Smoker will be reshowed, for the benefit of those present.

These reunions are being held under the auspices of the T. C. A. to enable the men to meet each other again and also create a better Technology spirit among the undergraduates. Any suggestions concerning methods of increasing this spirit will be appreciated by the committee.

As a fitting climax to the get-together, the group will sing several Technology songs, after which they will be lead in some cheers.

Everyone who was present at the Freshman Camp this year has been cordially invited to attend the Reunion. This invitation included upperclassmen, coaches of the various sports and members of the Faculty.

Senior Pictures Are to be Taken at the Institute

Appointments Should be Made in the Main Lobby at Once

Appointments are now being made for Senior pictures for Technique in the Main Lobby every afternoon from 12 to 2 o'clock. It is urged that all secure their appointments as soon as possible.

This year's Senior class is the first to have their pictures taken here at the Institute. They will be taken in Room 1-004, in the basement of the new Homberg Infirmary. Heretofore the men have been obliged to go downtown or out to Harvard Square to some studio, with a consequent loss of time and a great deal of inconvenience.

Time is Limited

This year the White Studio from New York has the contract for the pictures, and they are sending a man to do the work here at the Institute. For this reason the time over which pictures will be taken is limited. The firm has had much experience in the taking of theatrical pictures and those for yearbooks, and has a high reputation for quality work.

Each man will receive several sittings, and the proofs will be sent to him by mail for him to select the one he wants for the yearbook. The studio will give special rates on a number of separate pictures to any men desiring them. The cost for the one picture will be \$1.25.

The group pictures for the yearbook will also be taken in the basement of the Homberg Infirmary at the same time. It is hoped the men will respond to this added convenience by promptly securing their appointments.

Cross Country Race Is Feature of Track Contest On Saturday

Eleventh Hour Rush In Freshman Sports

Before the hour of twelve had struck last Monday 351 freshmen had signed up for sports. These yearlings took advantage of the warning that after that hour no aspirant for a sport would be allowed to sign up. Those who got around too late know now that McCarthy's motto "never put off till tomorrow what you can do today" is rigidly lived up to. The number of men signed up for each sport are as follows:

Track	94
Crew	73
Basketball	45
Swimming	40
Fencing	31
Boxing	30
Gym	19
Wrestling	19

President Is To Address Freshman Meeting Tomorrow

Will Speak on the Opportunities for Engineers in the World Today

President Stratton is to address the freshman class at 11 o'clock tomorrow morning in Room 10-250. As stated in Monday's issue of THE TECH, all freshmen are required to be present.

The President states that he will speak on "Life at Technology," and on "The Opportunities for Engineers and Scientists," in the world today. This talk is intended to familiarize the freshmen a little more with the Institute, and also to aid them in their choice of a course, which choice must be made before the start of the Sophomore year.

In previous years the President has always made it a rule to speak to the entering class on these and similar subjects. Other subjects commonly mentioned are the student-faculty relations, the importance of student government, the place of social activities in the school and similar subjects on which a freshman usually feels considerable doubt.

FRESHMAN LEADERS WILL MEET TODAY

It is especially important for the freshman section leaders to attend the regular meeting this afternoon at 5 o'clock in Room 10-275. There are only two more meetings of the leaders before Field Day.

Active discussion of special plans for Field Day will be the chief business of this meeting. Arrangements will be made for an organized march of the class on the field behind the band after the events. This marching was done last year but was quite disorderly. The freshman leaders this year want to organize the class so the parade will be a spectacular event.

The next freshman mass meeting, to be held just before Field Day will also be discussed more definitely. Further arrangements will be made concerning the glove fight, in which the whole class participates, and which for the freshmen is usually one of the most interesting events.

HANLEY AND DENNEY GIVEN APPOINTMENTS

John M. Hanley, '30 was appointed Manager of Basketball and Charles W. Denny, Jr., '30, as delegate to the N. E. I. C. A. A. and I. C. A. A. for the year 1928-29 at a meeting of the M. I. T. A. A. Executive Council in the Committee Room at 5 o'clock on Monday evening.

Hanley was Assistant Manager of Beaver Baseball, last Spring, and is a transfer from the Missouri School of Mining.

During his freshman and Sophomore years, Denny was Assistant Manager of Track. He was Manager of the Cross Country team last year and is a member of the Beaver Club.

HIGHEST SCORERS WILL BE AWARDED HANDICAP PRIZES

Open Competitions in Track and Field Events Gives All Chance to Win

MUCH INTEREST IS SHOWN

Unusual interest is being shown in the handicap cross-country and track and field meet to be held at Tech Field next Saturday afternoon. It is the first official meet of the season, as all individual scores that are made will be included in the point totals in the competition for the handicap cups. Each year ten of these cups are presented to the highest scorers in the various handicap meets throughout the year. One cup is given for each main event, and everybody has an equal chance of winning one.

The meet will begin at 2:30, and six events will be held in addition to the handicap cross-country race. The track and field attractions will consist of 150-yard dash, 400-yard run, javelin, broad jump, hammer, and discus. Besides this open competition there will be a relay race between two teams which will be picked by the coach. These teams will consist of ten, twelve, or sixteen men, depending upon the material he has to choose from. There will be several Sophomores and freshmen on these teams, and speculations on the outcome of the Field Day race should be made possible.

Cross-Country Race Is Interclass
The cross-country race will also be a handicap event and will be competitive among the four classes. It will (Continued on Page four)

CORPORATION XV HOLDS MEETING

Mr. Benjamin A. Pollet Speaks Upon Commercial Aviation

Mr. Benjamin A. Pollet, Boston, Manager of the Colonial Air Transport Inc., Colonial Western Airways, Inc., and Canadian Colonial Airways, spoke at the first meeting of Corporation XV in the Walker Grill Room at 6 o'clock last night. The topic of his talk was "The Commercial Aspects of Aviation."

Mr. Pollet stated that Aviation was useful in many fields. He stated that fish are transported from Mexico to the American market without the use of refrigeration. Fruits are similarly transported. "Aviation will only survive and be successful, not just as a novelty, but as a means of transportation," said Mr. Pollet.

He does not believe that the time will ever come when everyone will possess their own plane and operate it. According to the speaker, the largest field at the present time in Aviation are offered by the business opportunities.

Corporation XV has incorporated a novel idea in giving members credit with \$10,000 worth of stock in the New York Exchange. The purpose of the Association is to give members experience in making sound investments. (Continued on Page four)

AL SMITH, DEMOCRAT

AS it is the policy of THE TECH to be non-partisan in politics as far as possible despite the leanings of the individual board members, and yet discuss topics of a political nature in this column, a solution had to be found to this problem before politics as such could enter into the editorials. Fortunately, a solution presented itself readily that proved simple, childishly simple. Each candidate will be given equal space and equal praise. Last week we were Republican when Mr. Hoover came to Boston. This week the editorial column takes on a Democratic tinge. Al Smith is coming to town and will speak at the Arena tonight.

In this attempt to present brief pen-sketches of the three major candidates for the presidency, we labor under the delusion that encouragement for further research into their records will result in an intelligent choice by the electorate, as many as are at Technology of fit men for office deserving of the honor to be bestowed upon them. We hope, though, that in spite of our pessimism a few men will respond to this call.

Governor Smith, in this writer's opinion, is without doubt the more liberal and progressive of the two leading candidates. He is not only the more fearless and outspoken in his stand on the important economic issues, but also understands them thoroughly. "Up from the City Streets" which depicts vividly Smith's rise to fame and his present position, reads very much like a modern romance, and shows how eminently qualified the Democratic nominee is for the highest office in the land.

Of greater interest is his appeal to the progressives who see in him an able, dynamic leader who will continue the work of Roosevelt and LaFollette. But what does this appeal consist of besides the magnetic personality of the Governor? In brief, Governor Smith's platform rests on the following issues: a scientific modification of the Volstead Act, government ownership of water-power, immediate relief for the farmer, a discontinuance of the police of armed foreign intervention, entrance into the World Court with proper reservations, prohibition of the indiscriminate use of injunctions, economy in government, government reorganization, appointment of officials upon a merit basis irrespective of party. These and other questions have been and are being strenuously advocated by Smith. His record as four times governor of the Empire State, in the face of hostile legislation, indicates the grasp he has of governmental principles. The failure to find a flaw in the Democratic nominee's twenty years of public service has compelled the Republicans to attack him on the grounds that he is a Tammany puppet, and socialistic in his views. However, both these charges are easily refuted by the mute evidence of his eight years' record at Albany. He has risen above Tammany and its influence. If his welfare legislation, his fight on the power interests, his advocacy of public improvements, his efforts to increase facilities for the State's charges, can be termed socialistic, then let us have more of this kind of socialism. Our national government is sorely in need of such leadership and liberal thought in its management after the stagnation of the past ten years. The nation needs a man who will initiate new policies and not merely continue those of past administrations. Our next pen-sketch will be on Norman Thomas, Socialist candidate for president.

"AWAY FROM THE GRIND"

IT seems that a new idea must actually be started before any interest is shown in it—which, after all, is human. A new column was announced a while back, a column entirely made up of fraternity and dormitory notes, but there was a remarkable indifference in response. However, as soon as a few inches of copy was printed, there has been a deluge of letters, and comments pro and con have come thick and fast.

Our attempt Monday was decidedly merely a start. The material was largely written by THE TECH staff—consequently it lacked the personal touch which we hope each organization's representative will be able to give his communications. But it was a beginning, and we sincerely hope the idea will grow.

Judging from the comments received, those concerned agree that the idea of a contributors' column is well worth considerable effort. As has been so often said, contributions really make the paper. But such ideas require active cooperation from everyone. We thank you for what you have already shown, and urge continuation of it in the future.

The Open Forum

To the Editor:

I submit a minority protest against the flagrant violation of both the letter and the spirit of the Institute Committee's Constitution. In spite of the fact that the self-styled "M. I. T. Republican Club" was denied recognition as an official Technology undergraduate organization, its officers continue to use the name "M. I. T." in connection with it. THE TECH and the bulletin boards have carried this misrepresentation. The organization has also, apparently, had the temerity to make arrangements and solicit patronage of the torchlight parade as an "M. I. T. delegation" without authority from the Institute Committee.

It would be much more seemly if the "M. I. T. Republican Club" would follow the example of the law-abiding organized backers of Alfred E. Smith and refrain from misrepresenting themselves.

Yours for respect for law,
C. D.

"OUR PIONEERING WORK HAS JUST BEGUN"

Prospects For A Winning Varsity Crew Are Bright

Close Competition is Expected for Oarsmen in First Three Boats

Prospects for a winning crew this coming year are excellent with three Varsity crews rowing from the Boat-house every morning at 7 o'clock. Fall rowing is gradually becoming an important part of Technology's program each year, as it assists the men in becoming more thoroughly drilled in the fundamentals of rowing. This allows the coaches to devote their full time in the Spring to developing a championship crew.

In previous years, one or two Varsity crews were the maximum number that regularly reported for practice either during the Fall or Spring. This year, since the first call was issued four weeks ago, there have been three Varsity crews on the water each day and enough substitutes remaining so that even the men in the third boat have had to row their best in order to retain their positions. The competition for the two other crews has given the Varsity the necessary push so that every man is doing his utmost, and the boats as a whole are proving to be the best Fall crews that have rowed at the Technology Boathouse.

Although there are several of last year's Varsity men reporting for practice, there are still enough men who find it necessary to devote all their time to their studies this Fall and who plan to come out in the Spring so that four Varsity crews are practically certain in the Spring.

There are also several upperclassmen who are reporting at the boat-house for the first time this Fall and who will undoubtedly help to fill out some of the Varsity crews in the Spring. At the present time they are rowing with the lesser crews and thus gaining much valuable experience.

There is usually an opening in one of the crews for upperclassmen who have never rowed before, and in previous years some of the best oarsmen in the Varsity are those who have not reported until after their first year.

FENCING

Fencing practice will be held every Monday, Wednesday, and Friday, at 5:00 P. M., in Walker Gym. Every one interested is asked to turn out.

PRESSING and CLEANSING

FIFTY RIFLEMEN TURN OUT FOR FIRST PRACTICE

Two Stars of Championship Team Lost by Graduation—Many Veterans Back

LONG SCHEDULE PLANNED

Practice for the Varsity rifle team started yesterday, when over fifty candidates signed up at the range. Rifle, which is one of the most successful sports at the Institute, enjoyed a very good season last year, and should attract a large number of men this year. It is to be pointed out that a candidate need not be a member of the R. O. T. C. to be eligible for the team. This year the team shoots its first shoulder-to-shoulder match with the U. S. Marines at Boston. In March the team will make a trip to Washington, D. C. to meet the U. S. Naval Academy at Annapolis, and George Washington University, national champions, at the Capital City. Later in April the team journeys to New York to compete in the National Rifle Association Intercollegiate matches. Besides these shoulder-to-shoulder matches, the team will shoot several telegraphic matches with Penn State, University of Illinois, and the University of Washington.

Last Year's Team Successful

Last year the team defeated several of the best local National Guard teams, and split two matches with the Marines. As a climax to a successful season, the team won the New England N. R. A. Intercollegiate Championship, and placed second in the Eastern section of the National Intercollegiate Championship, being beaten only by George Washington University. In recognition of their success, the Institute awarded the whole team the "T" with crossed rifles. The members also won medals for placing in the National matches, and a massive shield which was presented to the Institute and now occupies a space in the Walker Trophy room.

Lose Two Stars

The team will feel the loss of Elliot, last year's captain, and Harbeck, former national individual champion. However, with Captain Reddig, Manager Orleman, Loomis, Kohler, and Twarogowski, all letter men from last season, Lieutenant Moore, the team's coach, expects to turn out a cracker-jack combination. Practice will be held on Tuesday, Thursday, and Friday afternoons from one to five in the range across from the track house. All upperclassmen will be welcome if they desire to compete for the team. Freshmen are ineligible for the Varsity, but will soon in their R. O. T. C. companies, and all of those who merit it will be allowed to practice with the Institute R. O. T. C. team, and if good enough, they will be given places on that team.

FRESHMAN TEAM IN FOR STRENUOUS WEEK

Assisted by Three Coaches Footballers Hope to Improve

Hoping to overcome their many weak points which were very apparent in their last game with Tufts, the freshman football team is going through a strenuous program this week, assisted by three newly acquired coaches. The coaches are directing their efforts towards gaining better team play and coordination which thus far has been sadly lacking. Tackling, interferences, blocking, passing, and other fundamentals of the game, are being drilled into the team so as to prepare them for Friday's game with the Boston University freshman team.

The coaches hope to improve the team considerably in these various departments of the game realizing that the day of the Sophomore game is not far off. The spirit of the freshies has been remarkable considering their huge handicap of organizing the team without the aid of a coach.

Captain Paul has been doing the majority of the punting but several other men are being drilled in this line so as to have a better balanced team. The football team is going through long scrimmage practices each night, having enough men on the field for approximately two teams. In this way they hope to round out a formidable looking team for their game Friday.

Yale University has just received a gift of \$20,000 to be used for fellowships or scholarships in the forestry course. The donor is Mrs. William H. Sage of Albany, N. Y., and is in memory of Mr. William H. Sage, Yale '65, who gave the University \$300,000 during his lifetime for the erection of a forestry school building.

SOPHOMORE RELAY SQUAD HAS EDGE

Time Trials Promise New Record for Interclass Relay November 2

Time trials for the Interclass Relay are now being held every afternoon, and the results for Monday and Tuesday show the average time to be better than that of 26 seconds for each man made last year. Both teams will easily better this mark, but the Sophomores team seems to have the edge at present by a small margin.

Of the 12 men on last year's freshman relay team, ten are back and practicing every day. Those that are back are Leadbetter, Persson, Danforth, Ayres, Broder, Olerman, Haskell, O'Sullivan, Wood, Gillford. All of these men are running in top shape, and barring accidents, will go to the mark for the Sophomores on Field Day. For the two remaining positions Coach Hedlund has a choice of 14 men, some whom may beat the veterans of last year's team, for although they did not make the team last year they have made wonderful improvement, and will give the more sure candidates a hot race. Among the outstanding candidates that did not run last year are Steverman, Landsman, Lappin, Prindle, Coleman, Brown, Genrich, and Wadsworth.

KIM ELIMINATED IN TENNIS TOURNAMENT

Kim, the winner of last year's tournament, was beaten by Colvert in the most startling upset in the quarter finals of this year's tennis tournament. This was quite a surprise because Kim has been playing exceptionally good tennis lately. The score of the match was 10-8, 6-2.

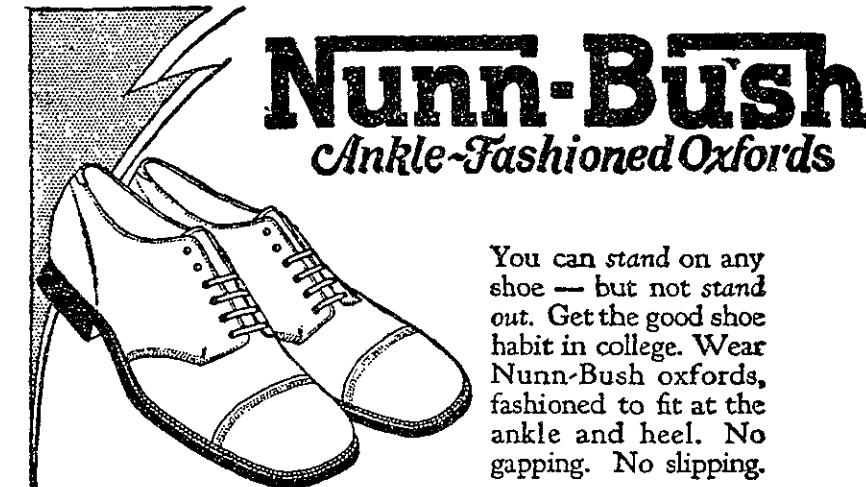

Of last year's team, Doleman, Kuki,

Cleary, Wigglesworth, Kononoff, Surles and Studley are still going strong. A number of the freshmen are showing some real form and it would not be surprising if some of the regulars were upset. The winner of the tournament will be presented with a cup.

Men on last year's freshman team may get their uniforms any afternoon at 5 o'clock in the A. A. office.

TECH SHOW

Skit writers are requested to hand in their material to the stage manager this afternoon at 5 o'clock in the Tech Show office and to be present at the Smoker on Thursday night.

You can stand on any shoe — but not stand out. Get the good shoe habit in college. Wear Nunn-Bush oxfords, fashioned to fit at the ankle and heel. No gapping. No slipping.

JUST PLAIN LOVE OF THE GAME

TWENTY-FIVE THOUSAND STONE & WEBSTER MEN KNOW THAT THE GROWTH OF A PUBLIC UTILITY COMPANY DEPENDS ON ITS SUCCESS IN SERVING THE PUBLIC.

again. There was trouble to spare that night—everyone knew where to find it, and went out to get their share. Swearing? Sure—Mad? Clean through—who but a moron or fool giggles at a blizzard—but happy? Every last one of them, and fighting with all they had."

—A Manager's Report

Stone & Webster men are recognized for the part they play not only on the job but in the community. Wherever there is a Stone & Webster company, there you'll find a group of men, bound together by a common fellowship, taking an active part in local affairs; working for civic betterment, helping to develop local industries. The Stone & Webster training fits its men for public service.

CHOOSE SENIOR DANCE COMMITTEE FOR YEAR

Arrangements are being completed for the annual Senior Dance, according to a recent announcement. The dance will be held at the Rogers Building on Friday evening, November 16.

Harold W. Fairchild, '29, was appointed as Chairman of the Committee but refused the chairmanship and Gordon R. Williams, '29, was appointed in his place. The other members of the committee are: Amasa G. Smith, '29, Lester E. Keene, '29, and Harcourt C. Vernon, '29.

The dance is held annually for the members of the senior class and admission is free. No other members of other classes will be admitted to the dance. Further announcements will appear in THE TECH in regard to the tickets.

REPUBLICAN CLUB TO HOLD OPEN MEETING

In order to give those who have not signified their intention of joining the Republican Club the opportunity to see what the club is doing, the first open meeting will be held tomorrow afternoon in Room 10-250 at 4 o'clock. A general Hoover rally will be held and four reels of Hoover film will be shown. The club now has over two hundred enthusiastic Hoover rooters but is still making a bid for new ones. In view of the fact that the club now has officers and is more systematically organized, it is anticipated that its activity will be more apparent to the Institute.

NOTICE

The first meeting of those interested in boxing will be held in the hangar on Oct. 30 at 5 o'clock.

PARENTS RECEIVE WARNING LETTERS FROM PRESIDENT

No Celebrations Off Institute Grounds to be Allowed on Field Day

EXPULSION IS PENALTY

All parents of freshmen or Sophomores received during the past week a letter from President Stratton warning them of the consequences to a student of violation of the rules governing Field Day activities.

The communication quoted the recommendation of the student government "that in order to protect the good name of the undergraduate government there shall be no parades or demonstrations of any character off the Institute grounds, and that the President of the Institute be requested to support this decision by giving due notice that offenders render themselves liable to expulsion."

This ruling was adopted to prevent serious outbreaks on Field Day and the days immediately before and after. The spirit of class rivalry fostered by the Field Day events has several times in recent years led to serious outbreaks which have served to damage the reputation of the Institute. Accordingly, the ruling was made that while there is no restriction as to conduct on the campus, any celebration outside the Institute grounds will be rigorously punished.

The communications are sent to the parents as it is believed that an appeal from home will greatly help in keeping the warring students within bounds. It also serves to notify the parents as to the Institute's course of action in such cases, as it is believed that the parents should know to what penalties their sons are subject.

NOTICES

An especially important meeting of freshman section leaders will be held this afternoon in Room 10-275 at 5 o'clock. All representatives are urged to attend.

The Al Smith Club of Technology will hold a rally next Friday, 3:00-4:00 o'clock in Room 10-275. Former Mayor Andrew J. Peters will speak.

The Aeronautical Engineering Society will hold their first smoker Wednesday night Oct. 24 at 7:30 o'clock in Room 5-30 Professor Taylor of the Institute will speak on European Aeronautics. Everyone is welcome.

The first meeting of the Boston Society will be held at 278 Commonwealth Avenue on Wednesday, October 31 at 7:30 in the evening.

Tennis Courts are to Provide Auto Parking

Exit chicken coop! Enter garage! The powers that be have at last found a use for the old tennis courts in the rear of Walker. These courts have for some time been an eyesore on the campus, and now they are to be used for automobile storage. Dormitory men have been in the habit of leaving their cars all over the drive in front of the Dorn office, and the result has been that passage there has been much obstructed. And so the plan was conceived of converting the old tennis courts into an automobile parking enclosure, and thus killing two birds with one stone. A gate is being constructed at one end of the cage, and it is expected that the space will soon be ready for its new use.

GROSS COUNTRY IS FEATURE OF RACE HERE ON SATURDAY

First Three Men Will Receive Gold, Silver, or Bronze Medals

(Continued from Page One)

start on Tech Field at 2:30 and will be about 2 1/4 miles in length. Starting front of the grandstand, it will be run around the track and out around the flag pole between Walker Memorial and Building Two, coming back to the finish on the track again. There will be hurdles and other obstacles along the course.

The men who will start on or near scratch are Thorsen, who won the race against Holy Cross last Friday, McNiff, who finished second in a glorious race, Captain Worthen, DeFazio, Herbert, and Captain Gilman of the freshman team. Some very good freshmen will start, including Littlefield, Jewett, Conant, Camerlingo, and Kelley. With such an array of stars against them with suitable handicap the Varsity men will have to do their utmost in order to carry away any medals.

Four Prizes For Leaders

The first, second, and third men to finish will receive medals of gold, silver, and bronze respectively. There will also be a time prize for the man who makes the best time.

This is the first time a race of this kind has been held on Tech Field, and it is a revival of the old hare-and-hound races that were so popular in the days of the Brookline course. It will be scored according to classes and the first seven men to finish will be counted in the scoring.

SMITH CLUB MEETS FIRST TIME FRIDAY

Andrew J. Peters, former mayor of Boston, will be the speaker at a meeting of the Al Smith Club which will be held in Room 10-275 next Friday, from 3 to 4 o'clock. This will be an open meeting and anyone who is interested is welcome. Howitt G. Latham is president of the club which now consists of about twenty members.

S. A. E. MEETS FOR FIRST TIME TONIGHT

This year's activities of the Society of Automotive Engineers will be opened tonight at 7:30 in Room 5-330. The meeting will be in the nature of a smoker and the purpose is to get students interested in the club.

Professor C. F. Taylor of the Institute is to speak on European Aeronautics. As all the European countries are far ahead of the United States in passenger carrying in airplanes the address should appeal to anyone interested in any branch of aviation. Everyone is invited to the meeting.

MATHEMATICS CLUB WILL HOLD MEETING

Opening their years program of meetings the Mathematics Club will hold the first meeting of the year at 5:00 in Room 4-231. This meeting is for the purpose of showing the students what the club does and what its purpose is. All men interested should come to the get-together.

Dr. Charles H. Harty, advisor to the Chemical Foundation, Inc., in an address before the Engineering Foundation stated that America is entering a "Cellulose" period in chemistry, and that many new industries will be the result of research in this field. He proposed establishing a cellulose institute, to conduct the necessary research. This institute would be financed by the cotton, textile, paper, and lumber industries. As an example of the economic value of cellulose, he cited the rapidly expanding rayon industry.

ANNUAL CHRISTMAS CONCERT DATE SET FOR DECEMBER 14

Outstanding Social Event is One of Four Concerts This Term

This year's Christmas Concert and Dance of the Combined Musical Clubs is to be on Friday, December 14. This date was decided on at the last meeting of the Executive Committee.

The Christmas Concert is always one of the outstanding social events of the year at Technology. This will be the fourth annual affair of its kind to be given by the Combined Clubs. The entertainment will consist in a varied musical program by the different clubs in the early part of the evening, lasting probably until about 10 o'clock, with dancing during the rest of the evening.

The schedule of concerts for the first term is as follows:

November 6. Franklin Square House.

November 18. Filene's.

December 8. Girls' City Club.

December 14. Christmas Concert and Dance.

There is room for specialty acts on the program this season. These acts do not necessarily have to be musical but may be any kind of a monologue or sketch that is entertaining. Men who can present any kind of a specialty act are urged to try out for a place on the programs. Those interested should report to the office in Room 303, Walker Memorial.

Freshmen who are not in an activity may still try out for the management of the Musical Clubs. There are positions open for freshmen in the Treasury, Business, Stage, and Publicity Departments.

Arrangements are being made to have the Glee Club sing for the Fox News and Movietone.

SONG CONTEST TO END IN JANUARY

Students are Urged to Try Their Hand at Writing Songs Prize to Winner

Five years ago a contest was started at the Institute for the purpose of developing a new Alma Mater song to replace the Stein Song. It was understood that this fall was the final date for submitting songs, but as only one song has been handed in since last year the date for the judging of the prize songs of each year has been postponed until January first.

Students as well as members of the faculty and the alumni body are urged to enter the contest and aid in the development of a new school song. So far all of the yearly contests have been won by a member of the faculty or of the alumni body, and students are asked to try their hand at the game. In addition to having the honor of writing the Alma Mater Song the winner will also receive a prize.

FIELD DAY BANQUET ARRANGEMENTS MADE

There will be a banquet in the North Hall of Walker on the evening of Field Day, Friday, November 2 at 6 o'clock. The members of the winning teams, marshals, ushers, and special guests will be admitted free, but a charge of \$1.25 will be made for all others desiring to attend. All those wishing to do so should notify Frederic C. Alexander, Jr. '30, manager of track.

In former years, the banquet has been held on the Saturday evening following Field Day, but it was decided this year to change the date to Friday. The banquet is held to give the participants in Field Day an opportunity to get together and talk over the doings of the afternoon. There will be several short informal talks by men prominent in Technology athletics.

T.C.A. OFFICIAL IS ELECTED TO OFFICE

Wallace M. Ross, General Secretary of the T. C. A., was recently chosen vice president of the Student Work Council of greater Boston. The meeting which was held at the Old South Church, had for its purpose the uniting of adults who are working with students, such as secretaries of Christian Associations, and different student pastors.

Meetings are held on the first and third Tuesdays from 8 to 10 o'clock in the morning. The following men were elected to the other offices of the council: President Dr. William E. Gardner of Trinity Church, Secretary Everett M. Baker of Mt. Vernon Church, Treasurer Leslie J. Adkins of the Old South Church.

CORPORATION GIVES \$10,000 TO MEMBERS

(Continued from page one)

ments rather than in speculating. Therefore the privilege of transferring stocks will be limited to transfers.

Transfers are to be made by dropping a slip in the Corporation XV in Room 1-180 before 3 o'clock every day except Saturdays and before noon on Sundays. The name of the stock and the number of shares to be sold, and the name of the stock to be bought.

It will be necessary for every member to notify the committee of the dividend paid on shares held by dropping a note in the Corporation box.

A prize of one share of a listed stock is offered to the member whose association shows the greatest earnings through his holdings at close of the contest on April 15, 1929.

TECHNIQUE PHOTOS

All Seniors are requested to make their appointments for photographs for Technique before November 1. Appointments may be made in the main lobby every school day between 12 and 2 o'clock.
